

TENDER SALE

ProAuction
Limited

On the instructions of The Shetland Norse Preserving Company Ltd.

(subject to Conditions of Sale and
unless previously sold)

We offer for sale by TENDER a complete
process & canning line for packing
fillets of herring, mackerel and salmon
in a range of sauces with a
capacity 25,000 cans per 8 hour shift.

The canning line consists of a two-trolley
defrosting unit for block frozen fish fillets,
cooking and cooling tunnel with a
capacity of 500 kg/h.

The packing section consists of one can
separator / de-stacker, operator packing belt,
check weighing / return system, sauce
pre-filling system, sauce topping-up system,
Trio CM2 crimper machine set for Hansa,
Club and Dingley cans, however the line
can be adapted to suit other products.

The line continues to the can washing system
prior to the continuous retort basket filling
section. The line is complete with a
sauce kitchen for heating, mixing,
chilling, storing and pumping a variety of
sauces.

The canning line was installed by Cabinplant A/S,
and has only been in use for a few months.
